

IN THE DRAWINGS

Figures 1 to 6 and Figures 8, 9A and 9B have been corrected and submitted as replacement sheets for Figures 1 to 6 and Figures 8, 9A and 9B. It is declared that no new matter is added in the replacement sheet.

REMARKS

The Office Action dated March 22, 2005 has been studied and review carefully. Claims 1 to 13 except claim 3 have been amended to conform to description in the specification. The reference numbers 114, 214 are designated as elongated threaded holes instead of short through holes so that the through holes 114, 214 shown in Fig. 1, 2, 3, 4, 5, 6, 8, 9A and 9B are corrected respectively. Because there are many mistakes in the original specification, a substitute specification is made for integrity. Further, a substitute abstract is submitted in order to comply with the corrections done in the substitute specification.

Respectfully submitted

JUNG-CHANG CHIANG

Dated: June 21, 2005
